

swopper

Nothing will move you more.

1) **3D technology:** Gives you flexible sideways motion, extends your reach and ensures an optimum sitting posture with respect to the working surface. This keeps your muscles, intervertebral discs, tendons and joints fit.

2) **Vertical movement:** Relieves the intervertebral discs and stimulates the blood circulation and your oxygen flow.

3) **Convex seat:** The shape of the seat encourages a free and upright posture and prevents pressure points at seat edges.

4) **Sturdy base ring:** Extremely stable, available with or without rollers.

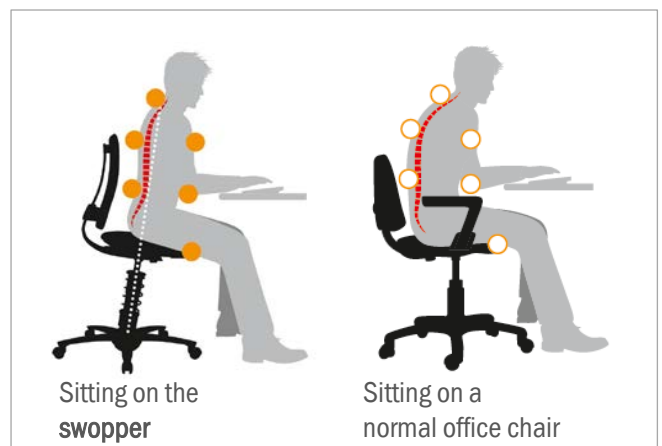

Setting options

- Seat height (gas spring)
- Weight (spring hardness / up-and-down movement)
- Flexible sideways movement
- Optional: height of backrest

Many advantages. Simply good.

- Acts against static and rigid sitting
- Improves sitting posture
- Relieves and strengthens the back
- Strengthens and exercises muscles
- Nourishes intervertebral discs
- Stimulates blood circulation and lymph flow
- Supports blood circulation and supply of oxygen
- Burns up calories – while sitting!

swopper

One fit for all.
